

THE WINDSOR SCHOOL SONG

We look up and we see the dawning
So we bring to you all our hearts
We will always be to your calling
In your hands our youth then we will entrust.

Oh! School, sacred temple of science,
Where we are learning the arts and faith
Dressed in glory you light the darkness,
Wisdom and virtue are your emblems.

Chorus

A radiant spring sun appears in your route,
brings up the glory, oh Windsor School!
truth of the knowledge under wide blue skies.

Windsor School in my breast you are
guiding my way, my star.
Science and love are your lasting laws
upon my mind you're always bright
